AUGUST 1956

Monday 27 New Delhi

There was a talk with Mrs. Maydeo today about Provident Fund, gratuity etc. & Dr. Mahajan. The way in which she was asking questions and talking with me was very rude. It was repulsive. The talk was of full superficiality. Though I told her that it was not possible for us to think of these measures on account of lack of money she went on questioning the wisdom of the members of the Society. So, I had to tell her that ~~either~~ ~~or~~ those who do not get these amenities should quit or if they insist then the only course left to the Society is to close the Hospital. At this she was angry and called me names.

Had been to Kengeri Village to witness the closing function of the Unisef Service Camp which was being run from the 16th of September there. Shri A. G. Ramchandra Rao, minister was inaugurating the Community Hall building which was built by the Campers during their stay of 25 days at the Village.

The Campers must have done good work while in the Village but it must be said that the closing function was not at all impressive ~~[illegible]~~ attempts were made in that effect. Even the building that was constructed by the Service Campers was not at all good somehow, I felt, that such attempts on the part of our best men are bound to be abortive for the simple reason that no extra labour or assistance is given to our ladies.

Was to go to Shahapur by mail today. But due to some misunderstanding I missed the mail and started at night by Express.

Had arranged a lecture to the Trainees in the Hospital. I spoke to them again on ~~Yoga~~ Yoga of Service. It was a repetition of the lecture I gave ~~yesterday~~ on the 8th

At night also at the time of the Bhajan I spoke to the girls. I have emphasised on 4 points

1. They should learn the Verses and memorise the correctly. They should not murder words.
2. They should learn Kannada songs also.
3. Punctuality and Regularity must be observed by all and all must attend the prayer.
4. They should try to concentrate their mind and think of the Creator at least in such prayers.

Had been to Vamanrao Apte with Rama in the A.M. Had discussion with him about the Hospital. Shamrao Bai and Pant came home with me after I missed the train. Allabery and Vimal Tambekar came to meet me from Dharwar as I had missed the train

Re. Dr. Mahajan's Health. This had at about 6.30 A.M.
After that an urgent wire came from

NOVEMBER 1956

Tuesday 20

Rama, Hubli about her state of Health. She said she is sinking. Yamini's letter of Yesterday was received in the evening she gave details about her sickness I have wired to Rama early this morning saying "Myself not going Mysore; Wire immediately Mahajan's health" At night at about 9.10 I received another telephone Call from Vaidya who had gone to Hubli with Dr. Balankhe: He desired me to go immediately. He had not expressed this desire in the morning. So, I had thought of leaving for Hubli or Phalaprabha after hearing from him again. The fact that he had gone there again meant that she was very serious. So, Cancelling my other programmes at Delhi I had to come back home in order to be near Dr. Mahajan. Fortunately some a Seat was available in the morning plane to Bombay but it would have taken me quick to Bombay only and not to Hubli. I tried to get a seat in the night plane which was to start at 11.5 from Palam. but was not able to do so. They could give me a seat upto Nagpur but were not sure of the seat after that. However, they offered to ask Nagpur and get a reply. Unfortunately their teleprinter was out of order and they could not get in touch with Nagpur. There was no time left. All the attempts were being made by us after 9.50 + before 10.10 P.M. While to catch the 11.15 plane at Palam we had to run at least 10 miles via 10 Aurangzeb Road. All the attempts at getting night plane were thus fruitless.

R.S. Hukkerikar and Bindadacharya Bubli had come this morn. I was sleepy. Hence I could not talk with them much. But in the evening we met at Doctor Mahajan's residence. He invited us to Dharwar to visit the Camp of the Bharat Seva Dal. Dr. Kabbur also had come from Dharwar to meet us all and to see Dr. Mahajan. Allabux and Naidu were there. Mr. Nesvi had come. I had a talk with them about mysore politics and the coming elections.

Early morning at 5 I was asked to go to the Hospital in order to meet the girls and men who had come from Ghatapratha in the dead of night. They were asked to proceed to Ghatapratha at 6 A.M. I came at the call. Made arrangements for their breakfast at Gopalacharya's hotel. After breakfast at the hotel the girls headed by Kashibai and Krishna left at 7.5 A.M.

In the afternoon at about 12.50 another batch of 8 girls had by Bharata arrived. All the seven belong to Hubli. It was therefore good for the Hubli Congress thought in that manner. The girls from Hubli did enjoy their trip as they were able to see the ailing patient and also visit their parents' home. They left at night for Ghatapratha.

Had been to the Old Secretariat at Delhi to meet Sri. MohanRao and others who were handling the Government of India printing which is largely done by the Adarsha Printery at Hubli. Mohan Rao had asked three Magnets of this which gave him necessary information about the work that is now going on at the Press. Had had a talk with K.B. Rao also. Spent my time in the Secretariat Office and discussed a few problems concerning the Secretarial Organisation

Had been for a dinner party to Radha Karnad's place in the Constitution House. Reached at 8.5 PM. Ramaswamy, Kaka Kalelkar, Nijalingappa were there beside me. We were there for about an hour and a half. Had lot of fun. Kaka Kalelkar's beard was getting more and more bigger and longer "in the same proportion", I said to him "Your beauty also was increasing".

I spoke about it to Smt. Iyer who suggested a way out. The find was requested to come home to meet me and have a talk. He came. But I couldn't be there at that time. I was at Dr. Keskar's. He wanted to spend some time with me. So, I stayed on at 8 Hastings Road. At night Dr. Keskar decided to drive me to Iyer's in the Diplomatic Enclave. She'd inform Iyer about it. Dr. Keskar wanted me and Mrs. Iyer to dine at their residence. So, Dr. wanted to invite them personally. He came to see me and invited Iyers for dinner next day. The invitation was accepted by Iyers. Babakere half work was done.

I had slight cold and felt feverish this evening. Slept early today.

I took my lunch today at Mama's residence. He had invited Shri M. D. Joshi of Ratnagiri

Invariably on this day during the last 8 or 9 years I have had a bad attack of asthma and stay in for two days. Most always on this day Dr. Mahajan met me. Today she is no more. I felt the absence. I do miss her. She has done wonderful work and had shown wonderful spirit. When she used to see me she would like a student or a disciple to always take down something or other. When I used to ask her to read again and again some Kannada script she used to say "I made it, I do not know, I am learning, how it was". Once she asked me to pay more attention to the Kannada grammar and pronunciation. She gently wiped some tears that used to hide the glass from me. When I found out she apologised to her. She was very kind indeed. I was her walk from the time she came in contact. I will only remember her good and excellent qualities that she did and used to do. Whether only one day more she served unselfishly or two, for her love or not, I forgive, I miss her very much.

Thursday 10

Continued Friday 11 New Delhi

From Feb 13.57 At Imphal

A number of other speakers spoke. A big procession with about 150 to 200 Uniformed Volunteers and local workers headed out in the city with Election propaganda slogans. To see such a huge procession in a far off place like this is very rare. We went for sight seeing in the evening. Women seem more forward in everything. I visited a village on the Burma Road, 12 miles away from Imphal and saw the market there. Most of the women. Women were selling their own products they had brought from their homes. We visited the Imphal market also. This is the first time in my life that I see more but women were selling and women were small shopkeepers of men were purchasing. Women seem to be masters in Manipur. Women are very active in this province. They control their own folk. They control their own homes. They wear ties and dress very tidy. But they are very. But they I like change. Only [illegible] opinion about them and will take time to talk. We then went to see the Manipuri dance. We did not find much the music about was [illegible] given its performance at 6 PM today. We were told about it at 6:45 P.M. We witnessed a few dances and returned while [illegible]

Our mail train was late by one hour and a half so I had lost the Deccan Queen and the Poona mail. Therefore we took the Madras express and reached Bombay at 1-5 P.M. Left Krishna at her residence (in Lamington Road) and went to Chowpatti Terrace. In the evening I went to the Hiranandani's flat and had many interesting news about Delhi and Bombay. Dilip was not there as he had gone to Poona.

Calcutta,

Wednesday 6

Reached Calcutta at 12.45 P.M. The train was two hours and a half late as officers of Calcutta were kept in front of the train at a station called Chunguat, 17 miles away from Calcutta. Our train was stopped at Fulesharai and arrived here at 9.25 A.M and left again at 11.20 A.M. It halts the next two hours. Again and again the stopping around Calcutta. So, on the whole we were 2½ hours late. All volunteers except a few had left Night Baba this weekend was time spending me met the P.C.C. President at his office and spent the stayed at Maharashtra Bhavan run by Gujaratis. At night we had some night dances. We went to the site of Kalika temple and then to the G.P.O as it was the 3rd market. Food and accommodation as it fell from sky and soil. All this had arranged by the Dal. It was a sitting programme. The visiting friends we met a first case and the album of Rabindranath Tagore and his book on "Man". Then very nice [illegible] of the Bengalis who gave it to me.

For the first time today I am making use of this facility given to us by the Government.

Went over at about 9 A.M. Saw the town of Agartala. While passing by the river Gomati I saw near the Post & Telegraph office where this Conference was attending in progress. Had a talk with them. Then went to the Circuit House and met the Radio Transmission station and returned after paying a visit to the A.I. Radio main station. Tel Mr. Rai was busy coming back at the Hqrs office and was staying that night at Agartala. A very pleasant surprise was given to me and it was by Mr. Hungtsingka, Executive Engr. Rajasthan who came himself to invite me to his house for lunch. Wednesday 13th. After meals we went to the Aerodrome. With Hungtsingka we [redacted] station to Ajit Bhattacharyya for [redacted] Delhi by Malda mail and left by evening we reached Agartala aerodrome at about 8.45 P.M. Dr. Mrs. Rao was not there. Heard a number of things but knew happening in the Hospital. It pained me to hear the same but had to decide to keep quiet for the present. Things will have to shape themselves. There is no use in hastening matters in such cases. The hospital is not going to be ruined for not appointing a full time doctor in medicine. We have to take our own steps along with us and depend upon the day to day routine work without feeling the need of a full-time doctor-worker.

Prayer should become everywhere wherever Christians are being trained. I have been feeling I want to see both the authorities of the K.H.I. think on this all-important subject of learning and giving prayer on their own initiative. The prayer should be undirected prayer. It should be simple and effective. It should be easy for various class variations are always healthy. If necessary the prayer should be translated if it is in Sanskrit. Some method should be followed in such all Indian gatherings. Such methods be taught to those who take part in prayer. I think all what is being done today regarding the prayer should be reconsidered and the individual should be allowed to handle this question.

Hanuman Jayanti.

Sunday 14

was celebrated today at the ashram, compound of which Temple area was gaily decorated. Puja was performed and Prasad was given. Hanuman was invited to come in the Pujarinis evening.

We went to Dhanbad and then to the Lokmat Mills to meet Jha there. Dada, the grand old man of Bihar had also gone to Jha. Nandy who was working as the manager of the Mill in Lokmat, had not had an opportunity to have very little talk with him. Now I saw him at close quarters. He seemed to be a good man.

Jha. R.V. Gangadhar was in with Hanuman Jayanti Celebrations. His Kathakalakshepam was fixed for 7 P.M. After a number of years I had heard the story. He knew evidently how to attract and hold his audience. I was glad to note the wonderful progress he had made in this art during this period. Unfortunately I could not attend the end of the affair as I had to go to Sri Sathya Sai Baba's Mahasamadhi and Mrs. Great Jha. Pandit, Vice chancellor of K. University in Rain Heroes going to U.S.A. Here we had the Orissa Ministers met the Belgium Consul, Asst. Collector, the D.S.P. and Commandant of the Camp of Belgium. We went to the Rest House at 9 P.M. and sat with until 1 A.M. of the next day talking with the Consul and others.

Shanmugam Mudaliar Esq. dropped in first in the morning this morning and made enquiries regarding the Indian Embassy.

Reached Hubli at 1.15 P.M

In the evening went to Mallimadan and asked him to come to the Hospital. I did go there & Shanta was in hospital. Had a talk with her regarding the Kitchen etc. Also regarding the doctor. Two Doctors, the matron & Cook furnishing type to the Social Welfare Project and Mrs Shah packing from the P.O. and the Sunday. She should take 7 days and go for learning with a view to get ready for taking the Organisation and Management of the Hospital. My idea is that those who took the training should something like subject themselves now can come together & talk. I think the Sevika Hospital, the present matron at the Women's Hospital, is an intelligent and sincere girl and she ought not to be any objection from Society to leave her position. But she must be ready towards the Institute for at least 5 years.

In the morning before I left Shahapurbaug Doctor Haldankar, Doctor, Vakeel Mukund, all came to the cottage and met me. They had come the previous night from the Centre.

Vidya still wanted to stay here for quite a while. But in the afternoon did go out. In the evening at the women's Hospital Vamanrao Apte, Indumati Rao Lingrad and Hobbin — all came. But we did not sit there. We went to Hobbin's house and first 2 hours there. I told Vamanrao again that unless Shantabai Bhagwat is attended as Lady R.M.O. or M.O. the women Hospital would not move smoothly and would not make any progress in future. She has taken 3 or 4 years that is necessary to run an institution after Lyle. She had the vision about it in her. That is absolutely necessary even in institution. So, I recommended her. It would be very an insult from this stand. Vamanrao said that I should certainly please my Vidya life in both when it meets.

Girls from the N.m. Saturday 20 Hubli left by
Girls had come to the mail train to the station along with the children Bangalore
at home. Had a talk with Shamrao and Pat at their house.

Mrs. Amadi has gone in Train. Mr. Apte from Hubli also. One of the passengers who was standing in mail fell from the footboard of the train and got both his legs injured. He was treated by a military doctor who happened to be in the same train. He said the first aid box in the train had practically nothing in it. On arriving Station the injured person was taken down from the train & the attendants of the compartment, all Indians including Amadi & Mrs Amadi the compartment cleaned. The station master said there was no complaint book and said he will inform Chief Commr. & then if I had to file then such a complaint should be lodged against them. Wonderful working indeed!

Had my dinner in train with Principal Shah who was leaving Bangalore. A man of very noble mind and character highly intellectual.

Amarnath Agnihotri had come to meet about his own son. He also came to the station at 3.30 P.M. to give me a send off at Bangalore.

Reached Bangalore this morning at 6.35 and was received by Mr Sundaram and others. Had tea at Nilakantha's house and had a friendly talk with them. Dadyo & Venkatramaiya had a talk with Ramana. K.N.V. was with them. Then met T.S. Went to Mrs Rajam Krishna Chairman of the Mysore Social Hygiene Board's residence and had a discussion with her regarding the plan of Red Cross Maternity Hospital in Hubli and the projects in Dharwar and Belgaum. I did explaining what a visit to Ghataprabha and see the work in project area.

Early in the morning had tea with T.S. at Mr Bhashyam's house. Mrs. Bhashyam, the widow, was there. This is the first time I saw Mrs. Bhashyam though I knew Mr. Bhashyam for over 30 years. I had seen him in his own house in Bangalore for a number of times, but had no occasion to meet Mrs. Bhashyam. When I saw her today I thought that the woman must be of a meditative and of a very modest life. She is [illegible] intensely religious.

Mrs. Bhashyam had a [illegible] discussion with Ramana regarding Ramana and his activities. Ramana seems to be disenchanted with the behaviour of some of the members of B.L.D.A.

Went in the evening to meet Ramana at his residence. He was not there. So, went to H.S. Ananda Rao's house in Anjaneya Block. He was at home. We were glad to meet each other. T.S. was there. Sadhu Natarajan..

Bhanu Shankar, Flat No 1 D-Type Diplomatic Enclave New Delhi 3: My York ... I suggest you return via Bombay by accompanying Pitha ... I must stand ... may not ...

In consultation with Dyer the above was drafted and sent. Early in the morning I had been to the Lal Bagh with S.R and Ramesh Gowda. After a breakfast at Dwarka we went to Hanumanthanagar where Vijaya introduced me to a number of people at home. At 2.30 p.m. I went to Prasanna's house ... for lunch with Dyer, Mandya Rao's family came from Maharashtra. His forefathers came to Mysore ... at the time of Chatrapati Raja and settled here. The mother tongue of Rao's family is Marathi at home. But it is Kannada mixed and intonation is altogether foreign to Marathi language. In the evening with Dyer ... went to the office of T.B. Clinic ... Gowda and ... Vinod Chandrasekhara Rao and helped me in building up our clinic in the Sanitorium. He said he would go on May 15. Accordingly I wrote to Dr. Vaidya ... I have also written to Belgaum Civil Surgeon ... met Dr. Modi at the residence of ... T.S. Took a detailed report of his work. While at the Station I met Mr. Madappa ... who spoke about the ... politics in Mysore and ... to express his disappointment at the whole thing. Did go & see the site which the Theosophical society is going to give to the Ayurveda Organisation. Some distance. Journey for T.S. at Parties. [redacted] We set out in 3 cars to go to Nandi Hills via Doddaballapur. Part T.S. came at about 12 noon. So, we requested him to proceed further to Doddaballapur and go to Nandi. We, and we would reach Nandi at about 6 P.M. direct. We avoided going Doddaballapur as it would have been a detour of very and waste of time unnecessarily. We left Bangalore at about 4 P.M. and reached Gauribidanur at about 6 P.M. We were welcomed by Sri Narasimha Murthy. T.S. in the car and the Congress-men and men in SR cars and the police van. One Mr. Parthi from U.P. was introduced to us by Parthi. The evening was very very nice. Splendid indeed. The sun-set was beautiful. We sat under a tree and had a number of topics to discuss. For a few minutes we were watched by students. I thought of my last visit to Nandi with Rangiah, Venkata, Chalapathi in 1932 most probably. We had an open air time merrily and enjoyed our stay on Nandi. We had to go and inspect the main road and old. T.S. was tired and he stayed in the Parthi. Many people who came last time with me. Nandi Hills brought a number of memories back to me. It was during the last visit my talks about the Organisation to improve which Mr. K. Chalapathi was the host to Tackle. Could see Cannanore & Bangalore at about 1.15 P.M. Wind was NW. Monday, Pentland came Kandi, had my bath and visited Pentland home. Had a long talk with Ramani (I.N.A.) regarding Bharat Samaj. Previous night had a talk with Ramaka, Mayanna, Vadan, Ramachandran, Sivarama Iyengar and others. Bought Gita, Bible, Koran and one or two other things in the office. The office is getting crowded. I am afraid that the happenings in the office may have unpleasant repercussions. Must be careful about this.

Sunday 28 Hubli

had a talk with Shamalabai in the morning. I did request her to go to Chikka Kadkola Village as early as she could as it was necessary for her to speak to the Trainees about the life of Villagers & the work that they were supposed to do there. I knew all that it was not possible for Sushila Nayak to proceed immediately due to the sickness of the mother in the Hospital. So, I thought that Shamalabai should proceed and not waste any further time. Shamala agreed.

In the evening went to Mallikarjun Rao and took him to the Hospital with me. Showed him the below rooms and requested him to stay at Kadkola before the 15th of May as we expected a number of visitors during the days of the medical experiment at Hubli. He denied his inability attend to that work.

At night Gangadhar, Ramakrishna and myself we went to Mallikarjun Cinema

Monday 29 Mukki and Ghatāprabha – night

Amathras of the Mukki magan cinema had come here to speak them about the affairs of our Ghatāprabha. I had most of the things with me; but it was not at all favourable for any of us to do anything now as the matter might take a wrong turn. So, I had to take a decision to return before any action was taken by us. I went for one spin relating and had a friendly chat with them. He then told me something which I did not like. We did exchange our mental note and decided to wait for a few days more.

Myself, Shivu and Ramachandra, we went to Dr. Joshi and told him that the meeting could be held and could be held at the end of May 57.

On the Belgaum Station Bhimrao had come. Dr. S.A. Vaidya Saraswati and the two kids of Ramchandra came to Ghatāprabha in the same train.

At Ghatāprabha I was told that Dr. Somwanshi's program was cancelled. That was what mayaram had told. Reason not given in the letter.

Friday 3 Ghatiprabha

Telephoned to R.K. Shenoi this evening and told him that there was [illegible] Tungabhadra Hotel and that I would reach home by the Poona Passenger which reaches Hubli at about 5-30 P.M. I had to telephone because I had [illegible] Kalyanaraman arrived and Rangaswamy that I would go back with [illegible] Dandeli on Sat

At Ghatiprabha also we had asked [illegible] one of the villagers to be brought from her centre [illegible] to hear her story of the affairs that she was carrying [illegible] She did come and we had to, by asking her questions, get every thing out of her. It seemed that the girl was avoiding to tell the truth. She seemed to be very clever and a parsee girl knows the national language. The letters that were written by the person who visited her often - some of them, were in our possession. These helped us to understand the situation. It took days and days and we had a long time to get the truth out of her. I too had to wait for an hour to get her version of the case. A written statement was taken from her in which she admitted her faults & crimes.

The Asst Sub Inspr from Bangalore met me in the morning. Some time was spent about the work that I had to do in organising the Scouts Camp in Hubli. The two organisers who came down to see me finally left and looked after the camp able to bear the strain of work. But it seemed that they knew very little of the various methods of publicity and propaganda. Any way they remained and did their duties.

In the evening Rangiah Raman Allaling and Ranganna came with me to Ashok Nagar for the Darshan of Hanuman. The temple is very well built. About Ten thousand have been spent on the construction of the Temple in Stone & R.C.C. Garbha gudi is 8 x 8 x 10. The inside and length of the entire construction is 26 x 40. A donor had donated about 1,000/- Rupees for the work of Layer of Cement flooring of the entire Complex. This is one of the reasons for the simple reason that I have thought of a good open climate for the Maruti Temple in Shahapuram.

Mr. Krishnamurthy, the A.O.S. of S.C. Rly was in the same compartment as that of mine. I had a talk with him on various matters regarding the Railways. Tried to understand the working of the Railway.

MAY. 1957. Election of 42 Municipal Members

Monday 6

Wife & I boarded a Congress New Delhi Reaching Bombay visited Adarsh Printing Press Adhikarana right Front Row Fixing Programme after consulting Com. Hardikar

Went to see the Election in progress. Met Ramchandra Bhatkar and asked him about his support and work. He had been to one of the polling stations. At about 2.30 P.M. I went to cast my vote and found some congress Leaders. Immediately the Presiding Officer was informed about it. The Question of Impersonation Vote came. Again for the second time the Congress Leaders who were present — the Congress Leaders were leaving Town (on their way to Poona for polling). After depositing my right of voting in Ward No. 7 I came to my office in Elphinstone and had a discussion about the polling station. No one was able to give an idea about it. So, I had to get the Chief Officer who was the Returning Officer and ask him. He sent a clerk with a list (this was published for the information of the public). Wonderful thing was that the Presiding Officer and the Candidates should not reveal a thing about it. I telephoned to the Commissioner and complained to him about the attitude of the Municipal Officers.

Myself entering 68th Year Today

MAY, 1957.

Haldi

68½ year of my life. Tuesday 7th

I am not yet conscious of my advanced age. I do feel that I am young and can do active service yet. I do try to act and always do keep myself busy. Sometimes however, the body revolts and does not obey the dictates of mind. The body must rest and requires some comforts. Manual labour is difficult to be done. This am living when I can do it. But generally, I have now noticed, I can't allow my body to work. I am able to carry sitting work for a number of hours without any difficulty. I feel that I can yet for a number of years to come have to act in this manner.

At Haldi the 68th was celebrated at home in the most ordinary manner. After meals I left Haldi by 5.10 a.m. for Khatkhatpur. I reached there at 7.40 and was astonished to see that the staff the nurses, the doctors and others were all assembled at the door of the Bungalow. They gave me a signal welcome and honoured me. At the canteen they assembled and in an entertaining fashion celebrated the birthday. Different kinds of garlands had been prepared. I spoke for about 10 minutes. Dr. Sondakke and Dr. Narang and some of Haldi were in

Bhaskar met me on the V.T. Station. He introduced me to Dr Rao and one of the workers of Advocate Badekar and Kalindi who were also on the station waiting for me and went away. So, I had to go with Bhaskar again to pick up Kalindi who, I thought, would be awaiting my arrival. I brought her to Chanpati Taxi. Bhaskar was with me all along. As I was to travel in air conditioned. This time I had to pay the difference between 1st and the air conditioned. It would come to about 76/- rupees. I had to pay the hundred Rupees for Badakar. Kamal came with her son Shekhar. Was glad to see him after a long time. She has gone down much. She looks pale. She has physical ailments under the effect of taking heart tonic. I have advised her to take rest for some months and change the climate. Her son Shekhar had some of his photographic glasses missing. They suspected T.B. So, she would like Dr Sanghvi was to examine him. I did telephone him and made an appointment for him. Bhaskar was to tell about it. Bhaskar was informed also that Tendulkar who was on the station promised to take her to the doctor. I mander was in Bombay for the Camp to be started on the 15th. I have promised to visit the Camp and spend some time with the Campers.

A few expert medicos and attending the Conference were invited for tea by me at the Women's Hospital. Wood was sent to all the officers and workers of the Hospital and we waited there for a long time thinking fully will attend at least some of them will come as promised. At about 7.30 two or more of the experts came. Tea was served waiting. I gave them an idea about the Women Hospital. They too in turn spoke. Srivas suggested that some of them should visit Ghatkoparbad. We took them that arrangements for taking them to Ghatkoparbad would be made. Shri Basavanni Mr. Dr. Balaraj urged them all to visit and study the Institute. Smt. Vidyavati Smt. Sarladevi Rao were there. They too took part in the function that day.

didn't like them. Unlike
this T.O.'s in this State the

Spent 3 days Baker and Haldridge, the eminent
Historical officers. Wonderfully conducted
and beautifully furnished. We were the most
pleasant combination not forgetting Baker
Myers as Haldridge. The latter was the Captain
of Hockey who ruled the roost of the country in
the 90's, 10's and 11's Cambridge. I must study
the Hyderabad history and understand the worldly,
educational, economical conditions of these days.
I know not much about the history of these days.
Photos of K.V. Myers, the 99 must be given to
me in order to study the history of Hyderabad. A
beautiful written Hindi dictating the life of
Ahmed Shah was sent to Hindi Pandit Myers
to read the book as well writing. Hindi with
and Urdu. After all it is an obligation. Really
speaking the Archaeological department organised
very well in this state and also the government
tries to make good arrangements of lodging
and boarding the tourists who are flocking
to see the old and ancient monuments. Still
has nothing been much done this year. Only
Golconda! When we went to Warangal it was
also the same thing. Really speaking the people
generally ought to take interest in keeping
such historical places neat and clean. But
they don't do it.

Was anxious to get in touch with Dr. Kabbur and talk him about the trip to Bhadrapatna. I did telephone to a friend from the village Hebbalsur near Haveri and requested him to transmit our message to Kabbur. He did. But the message was not fully written by the person who took it down on phone. Dr. Kabbur came to Hubli to meet me and get the clarification. From the beginning to the end it was nothing but a long string of misunderstanding. I did explain.

Had to leave for Hubli yesterday morning
my talk with Mr. Vaidya. Yesterday on phone
with Shri S.V.K. Rao [illegible] and
decided not to go and therefore had telephone
[illegible] that effect. I may go on the 30th by
Mr Rao and his wife Dr. Mrs. Rao had come
here to talk over matters regarding the hospital
and were here for more than one hour and a half
[illegible] the same along. Dr Rao wanted to know
[illegible] about the working of the hospital
[illegible] that some one from amongst the members
[illegible] Local Board should go & give information about the
[illegible] that had made in the meeting of
[illegible] Council of the J.D.A. Society on the 29
[illegible] month. That is all we talked about and
[illegible] me [illegible] Dr. Shamalakumar Nayak and
Mr Rao brought Dr. Shamalakumar Nayak and
one of them had a talk with me. I handed them
a copy of the [illegible] each other
[illegible] in order to [illegible] the
[illegible] smoothly. If they [illegible]
[illegible] I would [illegible]
[illegible] before the Board
[illegible] and see what they
[illegible] I did not
[illegible] if they approve
[illegible] any
[illegible] and
[illegible] and
[illegible] they agreed

S.V.K. Rao was to come here today in order to proceed to Jog Falls and Mysore. But he did not. We took lunch for him for one and a half hour. Then we took our lunch. Until 5 P.M. I did not know anything about him or about his movements. After that some one came and said that S.V.K. Rao had cancelled all his programmes on account of sickness. Having had no conveyance at my disposal I did not go anywhere. Returned to self having arranged my papers, corrected and all photographs. All the photographs were arranged properly in order to be taken to Bombay for being published in the Illustrated Weekly during the coming session of Congress.

The Collector of Anantapur came to the hospital at about 4 P.M and stayed for about 2 hours. He saw the hospitals, took tea with us and left for Anantapur. Shri Ramakrishnaiah, the collector, is a young man of 37 years. He is his first time he has come to this part of the country. He is also unmarried. He had come with his wife and found it very much interested in Construction work.

Rev. Srinivasa Patter was here the whole day. He left by the evening train for Bangalore.

Mrs. Irwin's daughter-in-law had come from Cuddapah by Dr. Reddy's car. Her mother was very much worried about her husband. She had naturally anxious to get back to her children and her husband. How can she go unless she wanted gets settled and he should permit? Her husband telephoned from Bhadra and asked her to send her back until she was perfectly cured. Her father-in-law telephoned from Bombay and asked her to come there. Her father telephoned from Poona and urged her to go to him.

Mr. Anwar Hussain and Mr. Sampagaon; M.L.A. came to me today after they attended the development Committee meeting in the P.W.D. Bungalow, which possibly was called by the Chairman of the District Mr. Anwar Hussain was very very sympathetic with Institute. He has always been like that. He wants to help the H.H.I. and he has been trying to do that for a long time. But he has not succeeded, unfortunately. He wanted me to ask for funds from the Government and make good the Institute still pursued. The Rs. 5 which has been given on loan and through the Amanat Bureau and You have received nothing. While the Government and say You have given them, I was also "I was very glad when I got from the lips of Anwar Hussain — a man who is of high character said so openly and pointed out that we shall never say in that manner. The Government Kindly sent work ministers from Bangalore Ministers from Bombay and Ministers from Delhi have come, seen, studied and gone. They found our work. If Govt. want to help us give and support the Institute but we will not say any thing about
